PROFESSIONAL EXPERIENCE

Information Technology Intern | Office of the Vice President for Research, Development, and Extension, Bicol University | *Feb 2026 - May 2026*

- Updated, tested, and maintained web application features and content workflows for the RDESys Proposal Management Information System.
- Supported dashboards, monitoring tools, administrative workflows, and reporting visibility for university stakeholders.
- Investigated issues, validated fixes, coordinated with stakeholders, and documented changes to support reliable system deployment.
- Provided technical support for meetings, presentations, and events using Google Meet, Zoom, and audiovisual tools.

Project Manager / Software Development Lead | IROQuest Capstone Project - Bicol University | *Jan 2025 - Jan 2026*

- Led end-to-end planning and implementation of IROQuest, a web-based Inbound and Outbound Mobility Service Management System.
- Coordinated requirements gathering, system design, development tasks, testing, documentation, timelines, stakeholder reviews, and final deliverables.
- Applied Agile practices to manage task assignments, progress tracking, issue resolution, and team coordination.
- Implemented and supported SEO-oriented website improvements including keyword optimization, metadata updates, internal linking, and content optimization.
- Prepared technical and project documentation and presented system progress and updates to stakeholders.

Digital Communications Head and Founder | Social Communications and Mass Media Pilar - Our Lady of the Pillar Shrine | *Mar 2024 - Present*

- Founded and lead a digital communications group responsible for website content, online systems, multimedia operations, and digital communications.
- Maintain and update website content including announcements, news, events, ministry pages, campaign information, and structured page content.
- Support website improvements through HTML, CSS, JavaScript, content organization, basic SEO, and platform administration.
- Coordinate digital projects with stakeholders, document requirements, manage priorities, and support implementation from planning through launch.
- Provide technical support for livestreaming, computers, network connectivity, and audiovisual systems used during major events.

Owner and E-Commerce Manager | PJRS Online Shop - Lazada, Shopee, and Physical Store | *2022 - Present*

- Manage online and physical retail operations, including product listings, inventory, customer support, order processing, and digital content.
- Maintain marketplace data, monitor performance, and improve product information and digital visibility through structured content updates.

SELECTED WEB DEVELOPMENT PROJECTS

BU RDMD System | Laravel + Inertia.js + Vue 3 + Tailwind CSS

- Developed a research management web system using Laravel, Inertia.js, Vue 3, and Tailwind CSS.
- Worked on data-driven dashboards, search and filtering, pagination, status handling, and administrative workflows.
- Integrated database-backed CRUD processes and reusable front-end components to support system maintainability.

IROQuest - Inbound and Outbound Mobility Service Management System

- Built and managed a web-based university service management application as Project Manager and Software Development Lead.
- Applied requirements analysis, iterative development, testing, documentation, and stakeholder validation across the project lifecycle.
- Implemented web usability and SEO improvements to support discoverability, content quality, and user experience.

GitHub Web Development Projects | github.com/russelioo

- WEB-DEVELOPMENT-SOREDA-RUSSEL - PHP web development project demonstrating server-side web programming.
- Music-Website-Design - HTML-based website design project; repository is a forked sample project and is listed as portfolio practice rather than original production work.
- Additional repositories include webproject1 and jr, reflecting hands-on coursework and web-development practice.
